Reference

Mr. Gyula Koblos, born on 7 February, 1979 in Hungary, joined our company as Developer on 1 September, 2023 and was employed with us until 15 December, 2023.

The WOLF Group is one of the leading suppliers of heating and ventilation systems. With around 2,100 employees, nine subsidiaries and 60 sales partners in more than 50 countries, WOLF has an international presence. The expert for a healthy indoor climate offers sustainable products such as heat pumps and ventilation systems for single and multi-family homes, office buildings and industrial environments. The company underlines this claim with the clear statement: "WOLF - Fully focused on me."

Mr. Koblos´ main activities included:

- Frontend Developer in an agile product team
- Lead developer for all frontend developers
- Mentoring, coaching and training of developers
- Design and architecture of frontend libraries and components
- Responsibility for the Wolf design system
- Ensure proper code quality, test coverage and documentation

Mr. Koblos also achieved particular successes:

- Creating the first version of the WOLF design system
- Introducing next.js as new frontend solution stack for future projects
- Launch of the Wolf Mediacenter, a website for public relations

Mr. Koblos possesses excellent technical expertise and in-depth knowledge in his specialist area. Further, he has acquired considerable and well-founded expertise through regular successful attendance of further education seminars. Due to his precise powers of discernment and intellectual capacity, he mastered his working area completely and assuredly.

Mr. Koblos always kept a general overview even in situations where the workload was considerable and performed all his tasks in an excellent manner. His approach was characterised by an unchangingly good systematic method and a high level of efficiency. In this respect he demonstrated a very high degree of self-reliance at all times.

His willingness to perform and his personal application towards our company were always far above-average. Mr. Koblos was a supremely motivated employee with an excellent work ethic. Thus, he achieved good performance results.

We would like highlight by way of commendation, that we could at all times unreservedly rely on Mr. Koblos as an honest and dependable developer. Furthermore, he always showed great creativity and proved his outstanding understanding for technical interrelationships. All said, his service eminently satisfied all our expectations in every respect.
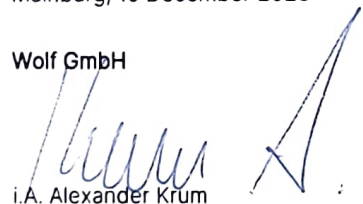

Mr. Koblos´ manner was always impeccable. In his dealings with superiors, colleagues and co-workers he knew how to create an atmosphere of trust and openness. His attitude towards our business partners or applicants was always faultless, too. He represented our company well at all times.

Today Mr. Koblos is leaving our company of his own account.

We would like to thank him for the very good working relationship based on mutual trust and wish him all the best and every success in his future professional and private life, and regret his leaving very much indeed.
